

PRODUCT SUMMARY

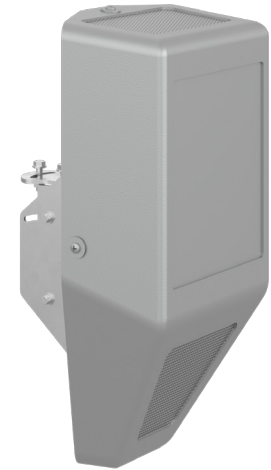

ConcealFab's 5G Modular Shroud is part of our flagship 5G product line. This single cone design conceals the heat sink and cables for Ericsson's 1281 mmWave radios. This shroud includes our trademarked clearWave™ material, which is color-matched to provide seamless color from the concealment to the radio. It also replaces the need for applying mmWave vinyl wrap to the front of the radio and simplifies radio maintenance.

The mount on the 900783_20DTAZ modular shroud allows for a 20° down tilt and 30° azimuth adjustment once installed. The shroud can be used on specific ConcealFab attachments that are designed to accept the unique mounting platform: 900894, 901061, 900868, 901109 (When combined with the 900213.) The 900958 Fan Kit is required for the 1281 radio and is sold separately.

SPECIFICATIONS

PART NUMBER	5G Modular Shroud, 20° Down Tilt, 30° Azimuth, Ericsson 1281
DESCRIPTION	900783_20DTAZ
RADIO COMPATIBILITY	1X Ericsson 1281
APPROVED FREQUENCIES	24 GHz - 40 GHz
MOUNTING OPTIONS	Bolted
MATERIAL structural components	304 Stainless Steel & ABS Plastic
MAXIMUM WIND SPEED	140 MPH
THERMAL MANAGEMENT	GR-487 Bench Tested and Certified. Actively cooled with required 900958 fan kit.
VOLUME	.67 ft ³
APPROXIMATE WEIGHT without RF equipment	13.34 lbs

COLOR OPTIONS

Jet Black-001	Terra Brown-002	Light Gray-003	Silver-004	Black Green-021	Tan-040
RAL 9005	RAL 8028	RAL 7035	FED STD 36463	RAL 6012	FDR STD 30340

*Light Gray - 003 matches light concrete or aluminum poles
*Silver - 004 matches galvanized steel poles

ASK ABOUT OUR CUSTOM COLOR OPTIONS

There may be minor differences between color options and finished goods due to formulation variations.
